

EILBECK SHEAVES

All Winches, Capstans and Sheaves are designed in house and manufactured in one of Eilbeck's state of the art manufacturing facilities in Australia.

EILBECK WINCHES

Whether it's lifting loads into the air, across the ground, Eilbeck Winches will move anything, anywhere. Industrial in both design and construction, Eilbeck Winches are the unit of choice in Australia's mining sites.

SVENDBORG BRAKES

Winches are manufactured with Integrated Manual and Lockable Drum Locking Systems for secure and safe maintenance and inspection.

Our Winches, Capstans and Winching Equipment are custom designed and manufactured to any specification required.

EILBECK CAPSTANS

Capstans are manufactured with specifically designed Fail Safe Hydraulic Brake Calipers, designed to operate when the drive motor has de-energised.

All of our Winching Equipment is manufactured to stand the test of time - galvanised or painted to suit the harshest of environments.
